THE LIFE

From that long dreaded first bell of the first day, to the final hurrah of the last, it was our friendships, free time, and even our differences of opinion that got us through it all. Of all our school days, it is these times we remember most fondly.

Welcome Back!

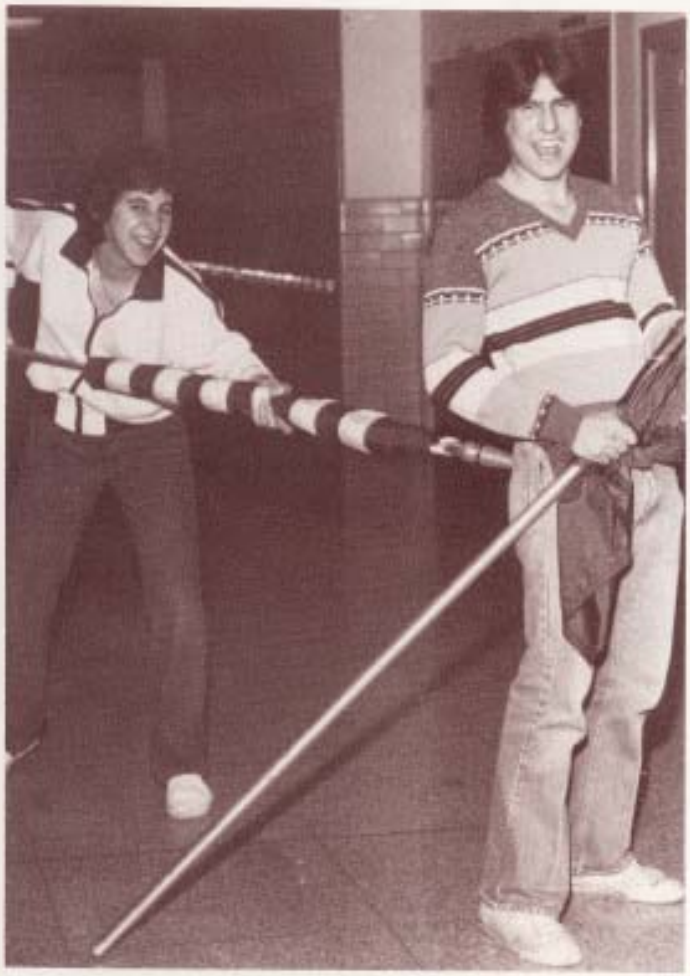
As the last days of summer drew near, our attentions turned, once again, back toward the hallowed halls of CAHS. Soon the summer romances would be forgotten, the suntans faded, and our lives would once again be regulated by the rigors of higher education.

The year began, as all past ones, with the King Coal Show, which is as much a part of the end of summer as the return to the three R's.

Upon returning in the fall of 1979, we were met with the many smiling faces of CAHS. Some familiar. Some new.

Although it may have taken a while at first, we soon fell back into our old patterns of a little studying, a little relaxation, and . . .

A Lot of Goofin' Off



As the year went on, we grew even more familiar with our everyday routine. In fact, there were times when it seemed that the tomorrows would never end.

Just Hangin in There

But, these times were relatively few. There seemed a constant supply of things to keep us busy. What really kept us going, though, were not the things, but one another. When the going got rough, there always seemed to be someone there to help the time pass a little faster, and maybe even make 'just hangin' in there' a little fun.

Keepin' Busy

Whether it was studying, working, or just clowning around, there seemed a never-ending supply of things that needed to be done. It was by "Keepin' Busy" that we passed the days all the more quickly. In fact, we barely had time to realize that the year was nearly gone.

. . . In the Nick of Time

As the weather grew warmer, and the number of days of school grew fewer, a strange thing happened. No, many strange things happened! But, they were all in good fun and helped the time pass even faster. It seemed that things had reached a peak. When that last bell rang, it was . . .

"IN THE NICK OF TIME"

As the weather grew warmer, and the number of days of school grew fewer, a strange thing happened. No, many strange things happened! But, they were all in good fun and helped the time pass even faster. It seemed that things had reached a peak. When that last bell rang, it was . . .

"IN THE NICK OF TIME"

For everyone, school days are very special, but it is the Senior who realizes this better than anyone. For twelve long years he has strived toward a final goal and upon reaching it, looks back half smiling-half tearful and wonders "Where has the time gone?" These years, in retrospect, contain not the petty differences of childhood, nor the uncertainty of adolescence but the wonderful lifetime experiences of a child becoming an adult.

PEOPLE

Everyone has a place in life. Nowhere is this more evident than in a school. From the superintendent on down to the lowly seventh grader, we are all here for a purpose, a purpose of general good for the community. This idea becomes even more evident when we realize that a school is not a place but a people.

The CAHS Drama Club Presents

"My Fair Lady

The Principal Characters: Bruce Riley as Col. Pickering, Christine Vrana as Eliza Doolittle, and Glen Hall as Professor Henry Higgins.

Eliza stands her ground in one of the many disagreements she and Higgins have throughout the play.

Higgins, Pickering, and Eliza show their utter elation at Eliza's finally becoming a lady.

Col. Pickering and Mrs. Higgins, played by Kim Krause, enjoy a chat before the ball.

"We Did It"

M. Durco applies makeup to M. Floreak in preparation for an up-coming scene.

K. Krause makes final adjustments before going on stage.

C. Vrana appears displeased with the whole situation.

S. Wozniak stands in the wings awaiting his cue.

Many months of hard work went into the production of "My Fair Lady." The labors, however, did not go unrewarded. Countless hours of rehearsal, staging, and costuming paid off well as the play was a resounding success.

As always, Mr. Neroni seeks to drive each actor to realize his full potential.

J. Murphy and K. Pratt pause for a drink between scenes.

T. Pevarnik waits outside "On The Street Where She Lives."

J. Zubal, as Alfred P. Doolittle, pauses on the way to his wedding long enough to say his final goodbyes.

D. Keyser warms up in preparation for the opening scene.

I Do Love You . . . "Still"

New NHS Members Swallow Pride in Initiation

Each Spring, when the National Honor Society had made its selection of students worthy of becoming its members, it is tradition at CAHS to make them sweat a little. Each year the inductees are given an initiation. In past years, the initiations have included slave days and scavenger hunts. But, this year the new NHS members were required to show their humility by dressing modestly and bowing to all present National Honor Society members.

A Quick Look Around CAHS

Mr. Neroni looks slyly off into the wings.

Chris Vrana looks disgustedly at an equally upset Glen Hall.

Miss Zavathcha looks intently at the ball in play.

Bill Connor looks breathlessly into the mirror at one of his favorite sights.

Bill Hanushock looks puzzled at the task at hand.

"Someday, I'll be out there!"

"Oh no! To the office again!"

The inmates have taken over Mr. Laick's class.

John and Bill head back for school after pickin' up some rays.

Rhonda seems to be rubbin' Glen the wrong way. (And loving every minute of it.)

We have programs in 25 fields, including communication arts — Media studies, computer science and mathematics, public service administration, and small business management, as well as one of the finest accounting programs in the East.

And we have two-year programs in secretarial studies, business administration and Christian education.

Our faculty cares about the programs we offer and the education you get. Nearly 70 per cent of our faculty holds doctoral degrees and all have proved their ability. They put the emphasis on teaching, not research. Professors — not graduate assistants or seniors — teach freshman-level courses.

Waynesburg has 800 students, meaning that you are more than a number here — you are a person. And since our class sizes are relatively small, you'll get the personalized attention that is very valuable.

Faces

As time passes, people and things change. We are not the people we were six long years ago, nor are we done changing and growing. In this ever-moving life we live, we make friendships and also must leave behind the friends we've made. Though we may be miles apart we can still be together, for . . .
